THREE STEPS. ABOUT A MINUTE.

No download and no launcher. Mancave runs in Chrome, Edge, Safari or Firefox on a laptop or desktop with a mouse and keyboard.

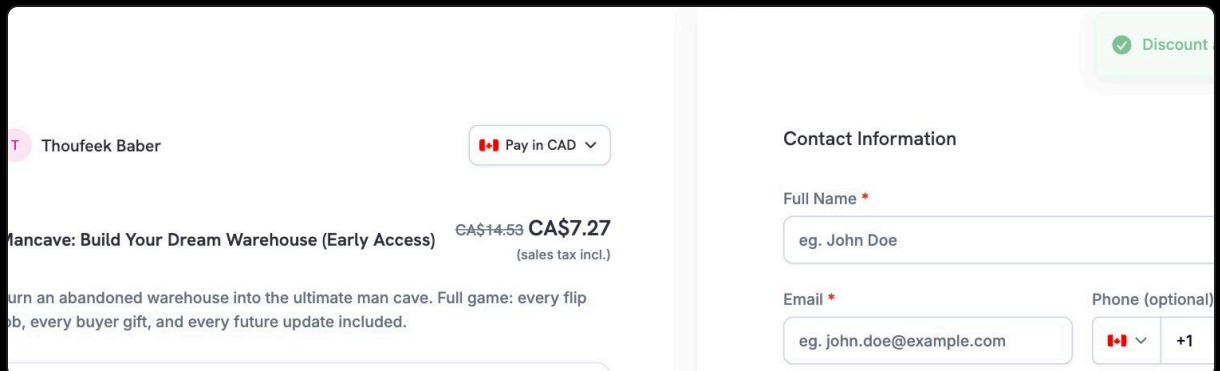

01 CLICK GET THE GAME

Go to mancave.thoufeekxlabs.com and press **Get the game · \$5**. Clicking copies the early-bird code for you.

02 CHECK OUT WITH EARLYBIRD

Checkout is run by **Dodo Payments**. Choose **Apply discount code**, paste **EARLYBIRD** and press Validate for 50% off. The price shows in your currency.

03 YOU'RE IN

After paying you land straight back in the game, already unlocked. Look for **✓ Full game** at the top right. Two emails arrive: your **license key** from Dodo Payments, and a thank-you note from us.

Sign in **before** you buy (Settings → Cloud save) and the purchase lands on your account, so every device you sign in on is unlocked with nothing to paste.

UNLOCKED, FIRST TIME.

ONE CLICK. NO PASSWORD.

An account keeps your cave and everything you own on every browser, like a Steam library. In the game, open **Settings** → **Cloud save**.

01 **Continue with Google** signs you in with one click. Prefer email? Type it and press **Email me a code**.

Sign in to keep your cave and everything you buy on every device. No password.

PLAYING SOMEWHERE ELSE.

Two ways to unlock on a new computer or browser. Signing in is easiest and has no device limit.

BOUGHT WITHOUT SIGNING IN?

Right after checkout the game offers to save the purchase to an account. One click on **Continue with Google** and it follows you everywhere.

SIGN IN WITH YOUR PURCHASE EMAIL

On the other device, open **Settings** → **Cloud save** and sign in with the email you bought with. The full game unlocks and your cave comes along.

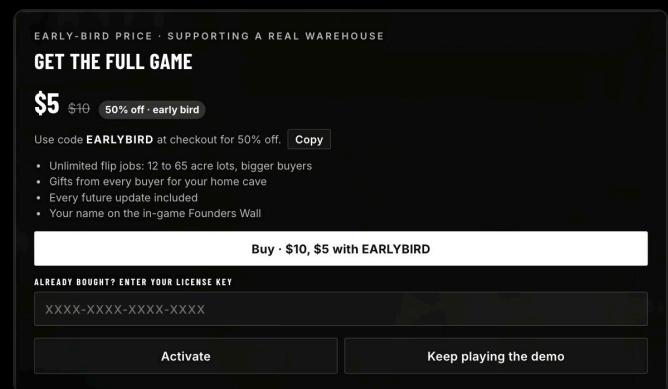

BOUGHT WITH A DIFFERENT EMAIL?

Sign in with any email, then activate your key once on that browser. From then on the key belongs to your account.

Your save follows your account. Signed out, **Settings** → **Cloud save** also shows a **save code**: paste it into another browser to bring your cave over. Keep it private.

OR PASTE YOUR LICENSE KEY

Click **Get the full game** in the game, paste the key from the Dodo Payments email under **Already bought?** and press **Activate**. One key works in up to **3 browsers**.

UNCLE RAY LEFT YOU A DEAD WAREHOUSE.

Haul the junk, wire it, plumb it, build the cave you always wanted.

It's yours to keep. Flip caves for buyers to pay for it.

01 CLEAR

Haul the scrap for cash, pressure-wash the slab.

02 SERVICE

Mount a panel, run 120V and 240V, pipe water in and out.

03 BUILD

Drag out a garage, gym, cinema or studio.

04 GO UP

Steel mezzanines with stairs and rails.

05 FLIP

Buyers hire you for bigger lots. Every job pays for home.

- **Every future update, free.** New rooms, tools, cars and systems land in the game you already own.
- **Any DLC, free.** If Mancave ever gets expansions, early supporters already have them.
- **Your saves.** Saved every few seconds on your device and to the cloud. Close the tab whenever you like.
- **Your data.** Signed in, **Settings** → **Cloud save** → **Download my data** gives you everything we hold in one file. **Delete account** removes it.
